I'm taking you home to the place where you belong. Welcome to the house on Holly Lane. This well-maintained home may have a bit of old-time flair, but it gives you the opportunity to make it your own with some very unique areas not typical of a basic ranch home. As you approach the home you will see the welcoming full brick exterior with a side entrance two car garage. Entering through the back door leads you into the Mud room area which houses the main floor laundry, large storage closet and half bath. The spacious kitchen includes Solid wood cabinetry and a bonus breakfast nook. Large dining room with chair rail and a large window is useful for a more formal meal area.. The living room, again with a large bay window, allows for so much light in this home. The feature wall has a beautiful fireplace. Two secondary bedrooms have adequate space and good closet storage. The primary bedroom has its own ensuite. Additional features include the central vac, AC, easy walk-up attic, private well, back patio and ability for a back yard parking area. This is a must see as the opportunity is evident once you take a tour.
